

**First Artmat  
was launched  
at Krymska  
street in  
Prague,  
November  
2019**

**Artmat revives  
(not only) places  
in public space  
and collaborates  
with interesting  
cultural  
organizations  
and collectives.**

**Refurbished  
vending machines  
will surprise you  
with curated  
selection of pocket-  
sized artworks  
from contemporary  
artists.**

**Boxes can include photos, drawings, illustrations.. Each edition is made specially for Artmat in limited amount. Art pieces are signed and numbered if possible.**

**We also like to work with conceptual art and give artists space to come up with new ideas of what to create for Artmat. On the picture: "Pheromon dating by Dante D. Hartl"**

**Keeping the value of  
pocket sized art pieces  
is important for us.**

**As well as motivate  
people to collect Art  
and be more curious  
about Art in general.  
We collaborate  
mostly with Fine Arts  
students or University  
graduates.**

**We like to share what we do and present artists through mass media. On the picture: official Czech Television shooting in silk-screen print studio of PUNX23 in Prague, summer 2020.**

**Meeting people offline matters! We organize opening parties, workshops with artists and different real-world occasions. :)**

**The content is  
colorful and  
interesting for wide  
spectrum of people.**

**Visual identity of the project is created by czech graphic designer David Babka. It is based on Mr. Box character, striking colours and Recoleta font. For Czech centers project, there will be a modification created.**

**Artmat  
v Brně!**
